

Stop the spread of bacteria and viruses... in your car.

Bacteria, mold, and viruses can grow quickly in your car's A/C system.

This service eliminates harmful microbes from your A/C system. It also sanitizes all the air vents for fresh, clean air inside your vehicle.

Protect your family today!

Frigi-Fresh® is a U.S. EPA registered virucide, bactericide and fungicide. Specifically designed to deactivate or destroy these harmful microbes.

Recommended every 6 months or as needed for climate and conditions.

Mold spore sample from a dirty A/C system
