

DOC[®]

Diesel Oil Conditioner

PN 112

Diesel engine oils are exposed to high temperatures and pressures inside diesel engines. This demand on diesel engine oils causes additives to deplete quicker than ever before.

BG DOC[®] is now formulated with 100 percent synthetic chemistry to protect engine components by fortifying diesel engine oils.

- ***Compatible with CK-4 oils***
- ***Prolongs acid neutralization***
- ***Prevents corrosion***
- ***Reduces friction and wear***
- ***Stabilizes oil viscosity***
- ***Prevents sludge formation through increased oxidation and soot control***
- ***Maximizes oil performance***
